EDUCATION

Bennett University *Expected 2028*
B.Tech in Computer Science and Engineering CGPA: 9.79/10
12th (Intermediate) – Hartmann College, ICSE 2024
10th (High School) – Hartmann College, ICSE 2022

OBJECTIVE

Aspiring Software Development Engineer and Full-Stack Developer with a strong foundation in programming, data structures, and web development. Interested in building practical, user-focused applications through frontend, backend, and AI integration.

TECHNICAL SKILLS

Programming: C++, Python, JavaScript, Java
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, PostgreSQL, MySQL
Tools & Platforms: Git, GitHub, VS Code, Postman, Figma, Docker, Redis, AWS (SNS, IAM)
DSA: Solved 300+ problems on LeetCode using C++ and Java.
Currently Learning: TypeScript, Next.js, Jira

PROJECTS

FinGenie — Personal Finance Management Platform | *Ongoing*
React, Vite, Tailwind CSS, Node.js, Express.js, MongoDB
- Building FinGenie independently with React, Node.js, Express.js, and MongoDB, implementing authentication, financial goals, and budget management.
- Implemented JWT authentication with bcrypt password hashing and password reset flow, along with transaction CRUD, bank statement upload, and monthly budget tracking.

Cognix — AI-Powered Adaptive Learning Platform
React, Vite, Tailwind CSS, Express.js, MongoDB, Gemini AI
- Developed a centralized learning dashboard organizing subjects and topics, giving students a structured interface for navigating learning content.
- Integrated a Gemini AI-powered assistant and video-based progress tracking across subjects and topics; handled module merging and end-to-end integration in a three-member team.

Melodia — Cloud-Based Music Streaming Platform
React, Redux Toolkit, Node.js, Express.js, MongoDB
- Built a Spotify-inspired music platform with JWT authentication, Redux state management, and HTML5 Audio API playback.

Feather & Quill — Bookstore Website
HTML, CSS, JavaScript
- Built a responsive bookstore website with book categories and a shopping cart, including quantity updates and catalogues.

Sportivo — Sports Management System
Java, JSP, MySQL
- Developed a sports management system for teams, players, matches, and tournaments, with CRUD operations and database integration.

INTERNSHIP EXPERIENCE

StepCode — Backend Developer Intern
- Contributed to backend development of the club management module for a skill-development platform, working on core APIs and backend functionality.
- Implemented Google Authentication and Google Calendar integration, and contributed to planning and developing the club management workflow.
